President Compers of the Federation of Labor to Meet with the Strike Leaders at Chicago and No Action Will Likely Be Taken Before His Arrival on Wednesday or Thursday -Prospect That Other Organizations Will Join the Great Sympathy Strikers - Meetings Held at Other

CHICAGO, July 9.-The feature of day has been the action early this morning after an allnight session of the federated trades unions of Chicago, in deciding to call out all classes of labor on Tuesday afternoon at 4 o'clock unless George M. Pullman should have agreed before the meridian of that day to settle the differences between his company and his striking employes by arbitration or other-

For reasons not known to the public, Grand Master Workman Sovereign of the Knights of Labor and his advisers subsequently decided to postpone the general walk-out and paralytic stroke which they proposed to inflict upon the business of Chicago until 7 o'clock The Following Unions Had Represen-Wednesday morning.

Late this afternoon, however, the anpouncement was made that President Samuel Gompers of the American federation of labor had called a meeting of the executive committee of that organization to be held in this city on Thursday and that he would leave New York for Chicago tomorrow evening. In view of this it is believed that the federated trades of Chicago will not take precipitate action before consultation with him. As President Gompers cannot reach Chicago before Wednesday night it will be impossible to decide on a line of action to be pursued before Thursday, and probably if it should finally be resolved to declare a general strike of all Ithese combined forces it could not be put into effect before Friday morning.

In this connection the interesting question arises whether or not if President Gompers allows himself to be hauled from New York to Chicago by non-union engineers and firemen his visit will be of any particular profit. One labor leader in Chicago said today that if he did so he might as well stay in New York. Another feature to be noted in connection with the meeting of Chicago's tederated labor is the fact which was developed that there was in the meeting a large and influential conservative element, whose action had practically blocked the plans of the more hot-headed leaders until the latter, in the excitement consequent upon the reading of President Cleveland's proclamation, were enabled to stampede them and carry the strike resolution. Therefore there is reason to believe that, even if the order for a general strike finally goes forth, many of those to whom it is directed will decline to obey it. So that, with the men already made idle by the effect of the tie-up, the walk-out will not be nearly so important as anticipated by the lead-

Intense excitement was caused today in the stock yards district by the mayor's announcement that no labor meetings would be permitted until matters have quieted down. An immense meeting had been arranged for tonight at Columbia hall, Forty-eight and Paulinasts., and at 8 p. m. a crowd had assembled. A notice from Mayor Hopkins had been posted on the door, however, stating that, in the present state of public excitement, it was not deemed advisable to allow such meetings to be held. officer was stationed in front of the hall, who warned the crowd away. Similar notices had been posted on all other halls in this district, and, notwithstanding there was considerable loud-mouthed defiance, no attempt was made to hold a meeting. After loitering about for an hour, the crowd finally dispersed and comparative quiet prevails.

All Night Conference.

The conference of labor leaders occupied the whole night. Inflammatory speeches were made by Debs, Sovereign, McBride and others. Shortly before 3 o'clock a motion was made providing that George M. Pullman be given until 4 o'clock Tuesday afternoon to decide whether he would submit the differences between the company and the former employes to arbitration. If he refused to comply with the demand, then the strike was to be considered on.

Some of the delegates wanted to leave the matter undecided and take the final action after Mr. Pullman and the railroad managers had declined to arbitrate. Earnest speeches were made on both sides of the question, but it was voted down on a vive voce vote. A motion was then made to call out every union at 7 o'clock Wednesday morning unless meanwhile some adjustment could be made with tion Pullman, and on roll-call this was ad-

It is understood that this move is much less important than was at first supposed for several reason. (1) It is claimed that gruder of Wesley chapel, in which he a number of the unions, including the favored arbitration, but condemned symbrickmakers, will refuse to be bound by the other men are already idle because of the general shut-down that has resulted Mayor Caldwell tomorrow and ask him

Among the leaders present were: J. R. Sovereign of the K. of L., E. V. Debs of the A. R. U., George Howard, vice-president of the A. R. U.: James McBride, president of the Miners' national organzation; W. D. Prescott, president of the Typographical union; James Mahon, president of the national organization of street car men; M. H. Madden of the State federation of labor; Richard Powers, president of the Seamen's union; James O'Connell, president of the machinist organization, and E. G. Martin of the executive board K. of L.

The Leaders Talk.

Grand Master Workman Sovereign of the Knights of Labor said this morning that he had determined to delay the order for a strike of his order until Wednesday. He said: "I make this postponeamong Chicago's trades unions. I do not

ous importance of a paralysis of Chicago's industries will force Mr. Pullman and the railroads to meet the railway men half way in measures for a settlement. It is high time that public sentiment should move the corporations to arbitration. Mr. Debs has all along evinced his willingness for arbitration, and the general managers should assume that manner, too. As soon as the result of the conference between Mayor Hopkins and the union committee is known, then we shall take up the question of calling out the K. of L. I feel that the union men did the right thing last night. The minute the president's proclamation was received I knew there

could be but one event-the strike orderand I am glad of it. "The action of the allied trades of this city will, I am confident, be followed in other cities," said President Debs today. "This is a battle for the preservation of union principles, and labor will rise en masse to help itself. While it is true that the chiefs of the older brotherhoods of railway employes are opposed to this movement, nevertheless, the individual members of the order throughout the West are in sympathy with it."

Resolutions Adopted.

The following resolutions were passed: "Whereas, The struggle of the A. R. U. against corporate oppresson and starvation wages has won for it the sincere sympathy of organized labor; and,

"Whereas, The trade and labor unions of the city of Chicago belonging to the American federation of labor have pledged their support to the memebers of the A. R. U.; therefore,

"Resolved. That the unions affiliated with the American federation of labor, represented in this conference, declare that the immediate presence of Samuel Gompers in Chicago is imperative and of more importance than his presence in New York; and, 'Resolved, That the officers of this

Two Thousand Five Hundred Iron Molders Go Out.

CHICAGO, July 9 .- Four assemblies of the iron molders' union struck today, 2,500 men going out. The Lake Seamen's benevolent association, with 3,000 members, and the Cigarmakers' union, 4,000 strong, voted tonight to strike. None of these bodies have any grievance, but have decided to strike solely because of sympathy with the Pullman boycott.

The Chicago Seamens' union, at a meeting today, decided that should the railroad troubles not be settled before Wednesday that the sailors would go out on a sympathetic strike. This will tie up all the sail craft in the harbor. The men have no grievance against the vessel owners, but they say they will stand by labor in other lines. Today all the coal companies stopped shipments from Buf-

"Precisely what they were a month ago," said Mr. West, "He don't see any-

thing to arbitrate. What is there to arbitrate? Nothing at all. We had but few orders and for these we had to scurry about the country. From the lack of work we were compelled to lower the men's pay.

"What has Mr. Pullman to say in regard to the news that all the trades unions will strike tomorrow at 4 p. m. unless he will submit to arbitration?" Mr. Pullman was seen, and after seeing him Mr. West gave the following reply: "Mr. Pullman cannot help the situation as he has many, many times stated. He can do no arbitrating, for he sees nothing to arbitrate. No, nothing at all."

J. C. Berry's Chicago advices report: The strength in wheat which started saturday continued the greater portion of oday. About the same class of buying noted in most foreign markets were the strong features. The visible supply show-ing a decrease of only about half a million bushels, when one and a half million was expected, was disappointing. The liberal selling by some outside and local professionals checked the advance and caused a reaction of about 1/2c from high point. The trade was fairly liberal and undoubtedly would have been much greater had it no been for the interest taken in the labor

Outs and corn were fairly firm, with prices nominally unchanged. The decrease in visible supply of corn was a little over million bushels and oats 363,000. No novement in cash or car lots. There was a beral trade in hog product, some movement in car lots of cured meats going out, also light shipments from Kansas City and Omaha to supply the southern trade. Market strong. The closing tone of the entire market ppears strong and favorable to holders.

The visible supply of grain is now as ollows: Wheat, 54,114,000; corn, 5,276,000; Local stocks of grain in Chicago: Wheat, 7,629,000; corn, 1,735,000; oats, 95,000. The English visible supply of wheat in-creased 800,000 bushels during the week.

The attorneys for the defense moved to quash the charge of murder in the sec-
